

## How to Make a One-Page Book

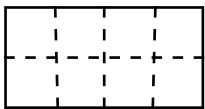

1. Cut out image.
2. Fold the paper in half.

3. Unfold. Fold the left side into the center fold, then unfold and fold the right side into the center fold. Open.

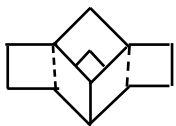

4. Fold in half lengthwise. Open.

5. Use a craft knife to cut the center line of the 2 center sections.

6. Fold in half lengthwise. Keeping it folded in half, hold the outer two folded halves and push inward. The cut halves will fold the other way, so you have an X.

7. Keep pressing in until the outer two folded halves meet at the center.

8. Fold so the title page is in front.
